# GHANA

Keta, Volta Region

- 🌍 We're based in Woe, a small village in the Volta region of Ghana
- 🌍 Traditional rural fishing village with little commerce and few tourists
- 🌍 Schools are underfunded and under-resourced
- 🌍 High rates of poverty so children come to school hungry and tired
- 🌍 Children must help their families fishing or in agriculture
- 🌍 Start school later, leave early – high drop out rate

# OUR PARTNER SCHOOLS

- Partnered with a mix of 10 non-government and comprehensive schools
- Lack teaching resources and equipment
- Facilities need repair and improvement
- Lack of classroom space
- No running water
- Girls miss up to 30% of schooling due to lack of sanitary products

## VOLUNTEER ROLES

Choose and go between volunteer roles: helping with teaching sports coaching, building and renovation. You'll not expected to be a professional but whichever roles you choose, you'll make a real difference.

Teaching, Nakuru, Kenya
